

# IN-FLIGHT EMERGENCY CHECK LIST:

1. Stay Calm.
2. Keep the airplane straight and level. If the autopilot is flying, leave it on.
3. Get the pilot out of the way. Try reclining the pilot's seat and/or using the shoulder strap to keep him or her from leaning on you or the controls.
4. Call for help and declare an emergency (**use frequency 121.5** if not already talking to someone).
5. Enter the **7700 emergency code** in the transponder.
6. Tell ATC what is happening and listen to their directions.
7. **You can do this!** Take your time, focus, and stay calm.
